Re: The Doe Run Company – Federal Mine Tailings Site Monthly Progress Report

Dear Mr. Gunter:

As required by Article XVII, Paragraph 73 of the Administrative Order on Consent (Docket No.VII-97-F-0009) for the referenced project and on behalf of The Doe Run Company, the progress report for the period November 1, 2013 through November 30, 2013 is enclosed. If you have any questions or comments, please call me at 573-518-0800.

Sincerely,

Mark Nations
Mining Properties Manager

Enclosure

Federal Mine Tailings Site
Park Hills, Missouri
Monthly Progress Report
Period: November 1, 2013 – November 30, 2013

1. Actions Performed or Completed This Period:

- a. Work continued on the task of stockpiling rock onsite. This work focused on stockpiling trail rock, Type 1 riprap, Type 2 riprap, Type 3 riprap, and Slope Protection Rock. These rock types are being stockpiled in the Borrow Area. As of the end of the period, work on this task continued.
- b. Work in Phase III of the ORV Riding Area continued. This work focused on covering the trails and grids that exceeded the 600 ppm action level. As of the end of the period, work on this task continued.
- c. Work also continued in Phase III of the ORV Riding Area on the East Main Drainage Channel. This work focused on final grading and rocking the channel. As of the end of the period, work on this task continued.
- d. Work continued in the Borrow Pit Area. This work focused on covering the open areas with rock. As of the end of the period, work on this task continued.
- e. Work continued in the Former Chat Pile Area. This work focused on grading the ditches and placing cover material over the area. As of the end of the period, work on this task continued.
- f. Work continued in the Shaw Branch Creek Area. This work focused on rough grading of the Sedimentation Ponds. As of the end of the period, work on this task continued.

2. Data and Results Received This Period:

- a. Attached are the lead monitoring results for the Missouri Department of Natural Resources – Department of State Parks (MDNR-DSP) air monitor located near the ORV Riding Area for September 2013. Neither The Doe Run Company nor Barr Engineering were involved with siting this monitor, collecting the samples, processing the samples, evaluating the data, or verifying the accuracy of the data.
- b. During this period, the Ambient Air Monitoring Reports for August 2013 were completed. Any issues identified in this report are discussed below. A copy of this document has been sent to your attention.

The August 2013 Ambient Air Monitoring Report noted the following:

- The action levels for lead and dust were not exceeded.
- No sample was taken with the Federal #1 (Water Plant) TSP monitor on 08/20/13 due to a mechanical failure. Upon discovery of this issue the issue was corrected.

3. Planned Activities for Next Period:

- a. Work in the ORV Riding Area will continue on the task of covering the trails and grids that exceeded the 600 ppm action level in the portion of the area included in the Phase III fencing plan.
- b. Work in the ORV Riding Area will continue on the East Main Drainage Channel. Work in this area will focus on rocking this channel.
- c. Work in the Borrow Pit Area will continue on covering the open areas with rock or soil.
- d. Work in the Former Chat Pile Area will continue. Work in this area will focus on rocking the channels that have been constructed.
- e. Work will continue on the task of stockpiling trail rock, Type 1 riprap, Type 2 riprap and Slope Protection Rock.

4. Changes in Personnel:

- a. None.

5. Issues or Problems Encountered and the Resolution:

- a. None.
